26 July 1965

* * * * *

1. The Director called to say that Mrs. Bess Abell, White House Social Secretary, wanted to know whether she should continue the employment of [REDACTED] who applied for re-employment by the Agency but was turned down. Apparently, he has asked to continue in his job with the White House. At my suggestion Colonel White contacted Marvin Watson at the White House to whom we had furnished information [REDACTED] and arranged that Mrs. Abell could contact him for any advice on the employment [REDACTED] I advised the Director so that he in turn could so advise Mrs. Abell.

2. Alan Warfield questioned whether we should turn in the Lincoln to GSA since the National Security Agency cannot accept the transfer of this vehicle. I said that we should wait until we learn the results of the Director's proposal to rent a Cadillac from General Motors.
